

Initializable

```
graph BT; LoginController[com.mycompany.cloudstorage.LoginController] --> Initializable[Initializable];
```

A UML class diagram illustrating inheritance. At the top is a box labeled 'Initializable'. Below it is a box labeled 'com.mycompany.cloudstorage.LoginController'. A blue arrow points from the bottom of the 'LoginController' box up to the bottom of the 'Initializable' box, indicating that 'LoginController' inherits from 'Initializable'.

com.mycompany.cloudstorage.  
LoginController
